

## Data centre at Ambattur

Tamil Nadu

CLIENT : A global provider of telecommunications solutions and Services  
SCOPE : Master planning, Architecture and Interior  
PROGRAM : Data centre of 50 MW  
PLOT AREA : 21 acres  
BUILT-UP AREA : 4,50,000 Sq. Ft.  
STATUS : Completed

This is one of the very first dedicated data centre buildings designed by Edifice. Being part of a larger master plan designed by ECPL, this building was designed allowing maximum flexibility for the future phases in the masterplan. This Stilt + 7 story building had a 6m tall stilt, housing major services with 6 levels of data centre floors above, each admeasuring about 45000 sq. ft. and one office floor at top.
